4.1 Evaluation Criteria

All submissions will be evaluated on the quality criteria listed below. Tenderers are requested to format any response in line with the below criteria e.g. use the criteria as headings for the various sections of any submission.

All tenders will be scored as below (after firstly being assessed on the pass / fail questions in Appendix B part II).

All Tenders will be evaluated on a 50/50 split.

The quality criteria and weightings are as follows:

Criteria	Weighting
Relevant experience and contract examples.	30%
Method Statement 1 – Working in a confined town centre site	40%
Method Statement 2 – Precautions to be taken to avoid damage	30%
to the retaining wall above the disused market site.	

The following matrix illustrates how response to questions will be assessed. The scores for each question will be used to calculate a percentage weighting based on the percentage weightings listed above.

Scoring:

Performance	Judgement	Score
Exceeds all expectations	Exceptional	10
Exceeds almost all expectations	Outstanding	9
Exceeds most expectations	Very good	8
Above Expectations	Good	7
Slightly exceeds expectations	Fair	6
Meets expectations	Average	5
Satisfactory but below expectations	Below average	4
Below expectations	Poor	3
Well below expectations	Weak	2
Almost Unacceptable	Very Weak	1
Unacceptable		0

Cost Assessment

The Cost Assessment will be based on the tender returns and are worth 50% of the overall marks.

The Bidder with the lowest tender price will score the maximum score of 50%. The other tenders will be scored pro rata as a percentage of their tender sum compared with the lowest tender.

Please see the illustrated example below for clarity:

Tender A	Tender B	Tender C	Tender D
200,000	210,000	220,000	230,000
50%	47.62%	45.45%	43.48%

Tender A is the lowest and scores a maximum 50%

Tender B 210,000 divided by 200,000 = 1.05

50 divided by 1.05 = 47.62%

Tender C 220,000 divided by 200,000 = 1.10

50 divided by 1.10 = 45.45%

Tender D 230,000 divided by 200,000 = 1.15

50 divided by 1.15 = 43.48%
